

MAKE THE RIGHT TURN.

PERKINELMER DEVELOPS, DESIGNS AND MANUFACTURES
THE ORIGINAL PARTS FOR YOUR SYSTEM.
WHO BETTER TO SERVICE, REPAIR AND OVERHAUL THEM?

For repair stations, airlines and independent end users, choosing the right partner for overhaul and repair is critical. PerkinElmer Fluid Sciences is an original source for parts and assemblies applied on the equipment and systems you maintain. A key partner to OEMs, PerkinElmer is preferred because of its advanced fuel-saving technologies in mechanical seals, pneumatic ducting and solenoid valves for fuel, hydraulic, pneumatic systems, engines and accessories.

PerkinElmer Fluid Sciences, the right choice.
